GIFT WRAP & PACKAGING 2011

i

## Mix & Match

For larger gifts, why not consider layering two or more papers of different patterns or colours.

To achieve the look, start by wrapping your box with one paper — it could be either a solid or a pattern.

Then cut wide bands from a second, complementary paper and using double-sided tape, create a wrap band.

Create more individual touches by overlaying two ribbons in contrasting colours, width or texture.
